## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephan A. Pendorf on 06 December 2004.

The application has been amended as follows: claims 17 and 18 have been canceled.

2. The following is an examiner's statement of reasons for allowance.

Claims 19 and 20 are directed to solid substrates having a group for initiating ATRP-polymerization chemically bonded to the surface of the substrate. Claim 20 further comprises an ATRP-polymerized polymer and/or oligomer layer formed and chemically bonded on the surface by means of the group for initiating ATRP-polymerization.

Guan et al. and Matyjaszewski et al. represent the closest prior art. However, as argued by the Applicant, neither Guan et al. nor Matyjaszewski et al. teach chemically bonding the polymer formed through ATRP to the surface of the substrate or chemically bonding an initiator for ATRP-polymerization to the surface of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (571) 272-1518. The examiner can normally be reached on Monday through Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones, can be reached on (571) 272-1535. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
